

# THERMOCODE SERIES 2

## 32S

### THERMAL TRANSFER RANGE/ Thermocode Series 2

Thermocode Series 2 is our established range of thermal transfer printers., now available in 32mm printhead.

With the 32 head it gives the benefit of reduced ribbon usage, making it a perfect solution for smaller regular date, batch and price codes changes real-time coding barcoding and graphics, with a print area of 32 x 30mm.

It is user friendly, an ideal solution to virtually all on-line thermal transfer printing applications. No mechanical adjustments required for print quality. Suitable for all intermittent motion packaging and labelling machinery.

#### FEATURES

USB A & B/ Ethernet

32mm printheads

Variable print up to 53mm length

High speed image update

12dpmm/305pdi

On board format editing

Remote connection

Robust /proven technology and design

Real time/date printing with high speed processor

Up to Print Speed 400mm/second

Easy loading ribbon magazine

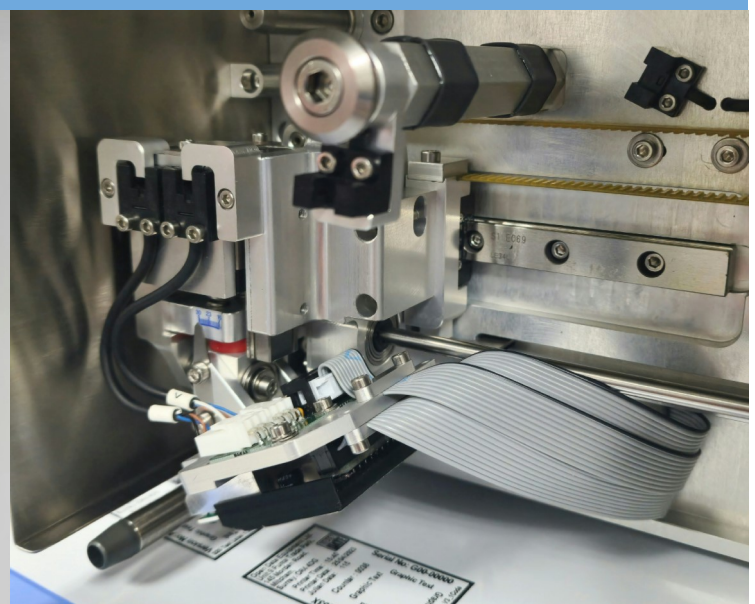

Internal Memory

Self-levelling print head

Less than 1mm gap between prints

Up to 5 Metres connection cables

No Compressed Air requirement
